SUMMARY

Since I have first started in the programming area, I have been studying daily to get my first opportunity. Now, in the 2nd semester of the Systems Analysis and Development course, I have been constantly practicing to put my knowledge into practice. I am a fast learner, a good communicator and I am willing to learn new languages and professional skills to improve as a developer.

OBJECTIVE

Seeking to fulfill a dream: entering the job market as a Back-End Java Programmer.

TECHNOLOGIES

I have previously studied some languages: C (Intermediary), Python (Basic) and C# - CSharp (Basic). Now, I'm focused on Java, I have (Basic) knowledge of Git and GitHub

LANGUAGES

- Portuguese (Native);
- English (Conversational).

EDUCATION

Instituto Federal de Educação Ciência e Tecnologia de São Paulo
- Tecnólogo em Análise e Desenvolvimento de Sistemas (07/2023 ~ 07/2026)

EXTRACURRICULAR COURSES

- *Java: Criando Sua Primeira Aplicação - Alura;*
- *Versionamento de Código com Git e GitHub - D.I.O. (Santander BootCamp Java 2024);*
